

C8

JUMPING RAMMER

FEATURES

- The stroke was adjustable, which can compact different soil and asphalt roads.
- The special muffler cover can reduce the noise generated by the engine and the floor.
- The shock-absorbing guide handle can reduce operator fatigue.
- The bottom plate was made of wear-resistant steel plate and outsourcing rubber to extend the service life.

Overall size

Model		C8
Total length (L)	mm	1000
Working width (W)	mm	350
Total height (H)	mm	788
Weight	mm	80

TECHNICAL DATA		UNIT			C8
MODEL		C8			C8C
Engine		HONDA GX160			CHANGCHAI 170F
Engine type		Air-cooled&four-stroke&gasoline			Air-cooled&four-stroke&diesel
Power		kW			3.1
Rated speed		rpm			3600
Exciting force		kN			16
Operating weight		kg			80
Impact frequency		PM			650-700
Take-off height		mm			50-80
Shock floor dimensions		mm			400*300
Length*width*height		mm			1000*350*788
